

# IN HOT TIMES – KEEP COOL!

**STORM**   
Technology and Service for  
engines and prime movers

## ECOS<sup>®</sup> Exchange Intercooler\*

We extend our exchange programme and now offer our new **ECOS<sup>®</sup>** Exchange Intercoolers. With these components we also ensure short engine downtimes and therefore minimized breakdown costs – as you have already experienced!

Independent from the brand our **ECOS<sup>®</sup>** Exchange Intercoolers allow most reliable operation of your engine. This is essential for an economic operation – especially for **operators of biogas plants.**

**Also available:**  
**ECOS<sup>®</sup> Exchange Turbocharger!**

Your customer advisor will be pleased to inform you of all details.

*We are on the move*
